

TAJA-01

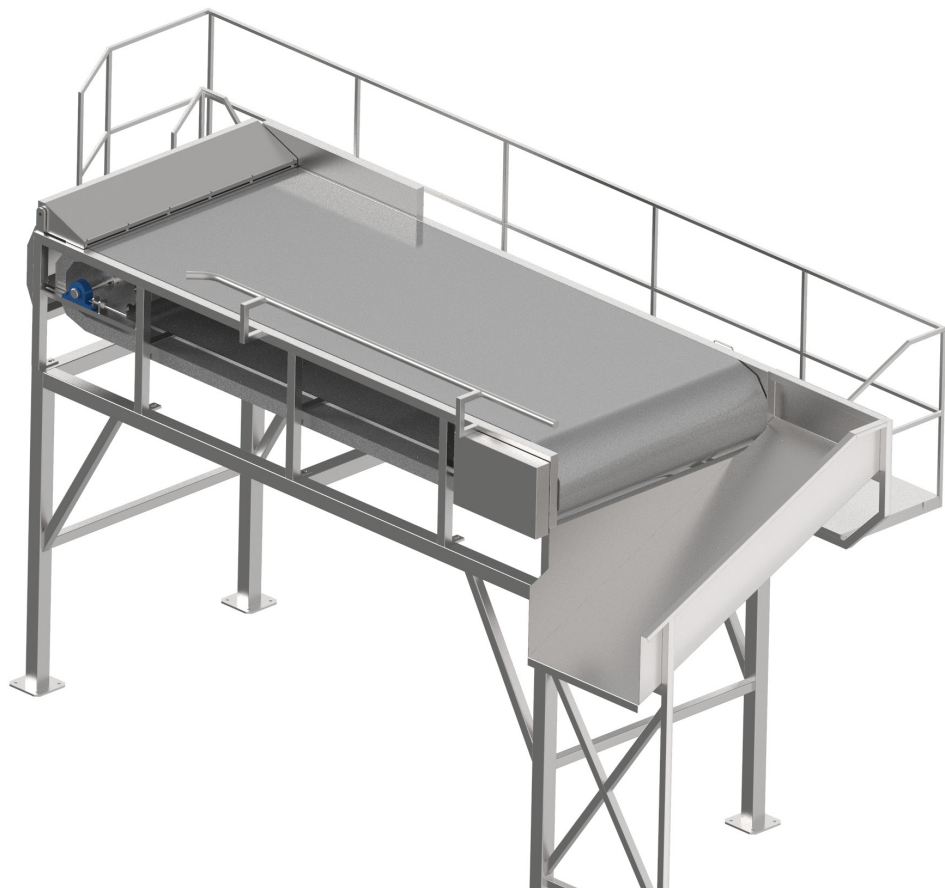

— MOTORIZED GAMBLE TABLE

The motorized conveyor comes with variable speed for hanging pigs on the rails. Solidly built, our motorized tables adapt to the desired speed, while being safe and washable. Several grinding and tenderizing models are available for speeds of 15 to 600 pigs per hour, depending on the configuration.

- Built with 304 stainless steel
- Electric or hydraulic motor
- Mechanical components for food processing
- Electric control
- Hydraulic entry rail
- Exit chute

AVAILABLE OPTIONS:

- Support structure
- Adapted rail system
- Full Automation
- Operator gateway
